WHAT DOES ANTALYA PARK DO?

Antalya Park is manufacturing soft plays, trampolines, adventure parks, and interactive electronic games which requires experience.

Our factory aims to offer the best quality products with innovative designs for all projects, manufactures soft play equipment for more than +65 countries and it is a leading manufacturer in this industry. Our products are exported all over the world.

Our design team consists of interior architects, engineers, and 3D designers inspired by the idea of how to make children have more fun while playing.

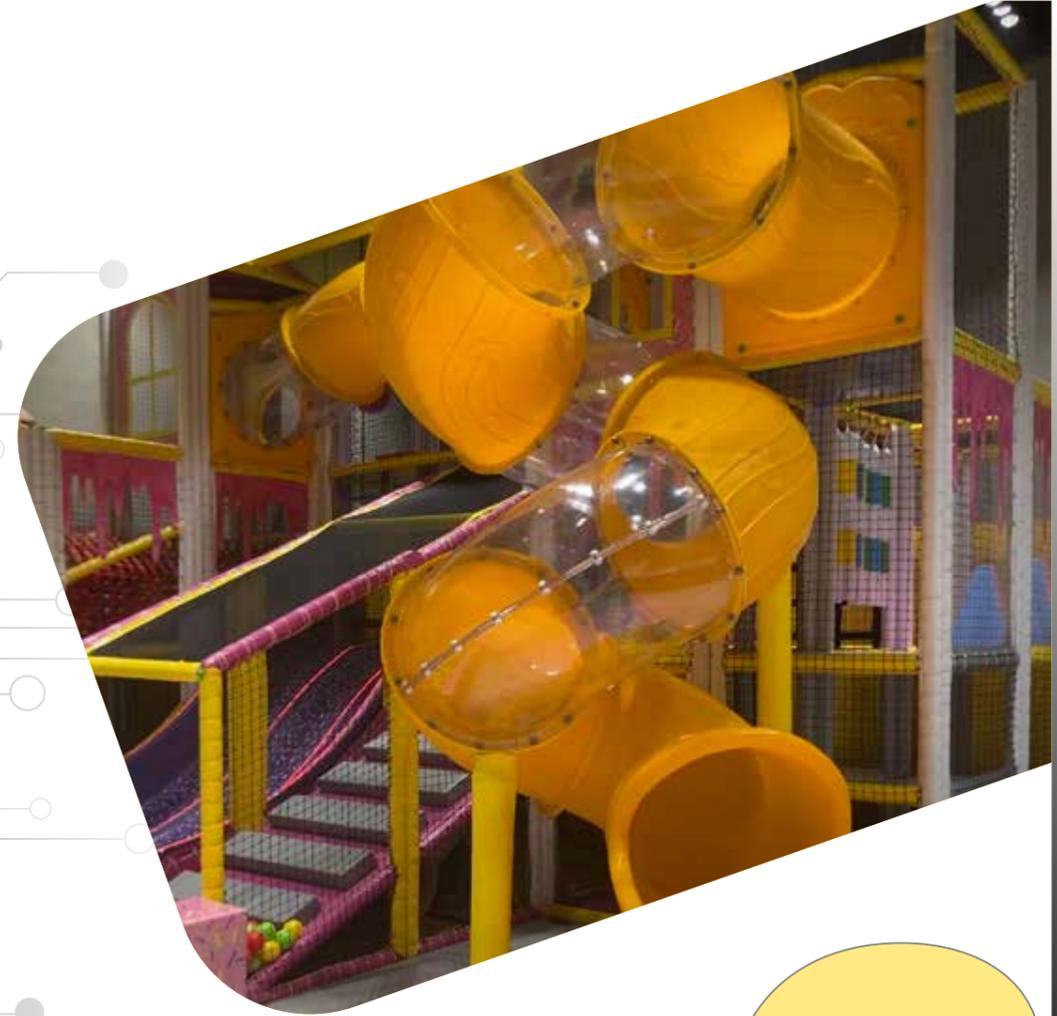

Creating playground areas involves the art of design and manufacturing. Always working to innovate our technology, design, quality and manufacturing.
